

Crimes of the USA

(They are managed for that moment by the Satanic Pact)

Hiroshima & Nagasaki Nuclear strike

They have started their crimes worldwide by dropping 2 nuclear bombs over Hiroshima and Nagasaki in Japan 1945 year

The result is something like 1 MLN and over instantly killed and many more from the radiation poisoning many years ahead. They have said targeted military personnel. In the end the outcome has been more than 85% of the victims have been civilians - exactly in the style of the biggest world criminals showing their first really terrible global crime memorized into the history until today. Whatever they have done was not necessary due to the coming capitulation of Japan. They were supposed to fall down not so far away into the future. The global criminals with their mafia style extortion methods have threatened they are going to destroy one city every month with their nukes. Since then the rest of the world has rights to nuke them back for whatever they have done to Japan. Especially Washington is a good idea to be burned until the ground from where it comes all the evil worldwide.

Vietnam

Here they have murdered as well so many innocent people using another miserable weapon for mass killing into the jungle called napalm. They have burned alive many Vietnam soldiers together with another innocent civilians as usual who have stayed on their way.

The good thing is they have dropped voluntary from the war when they have seen have no chance against Russians who for I don't know which time have entered to save the people from their extermination from the Americans.

Iraq

The offenders have murdered so many people in the desert. They are managed by the religious satanists, who are on the top of the inquisition as well and the results are they want to smash and destroy other religions different than their own.

Until today they did not stop to try to exterminate the Arabian world due to the difference in the religions. They are thinking the Arabians for cheaters and liars and starting since Iraq 80st years of the last century they have interest in the region of Middle East causing permanently destabilizations, inputting unreasonable worked out from nowhere sanctions and making wars whenever they could.

Afghanistan

They have done a scheme as usual to enter in war with that country. They have needed a reason. For that reason they have created Al Qaida via their traditional CIA black funding program to make shit around the world and to assign afterwards the root of evil as coming from Afghanistan. They have appointed as their agent Osama Bin Laden who has been their agent. You can ask Targeted Justice in the USA about that. They are going to tell you exactly the CIA agent name of Osama Bin Laden. That has been their first successful terrorists creation project. Afterwards, they have done the attentat with the 2 towers twins in New York by falling them down and they had a "good reason" after that to enter in Afghanistan and turn that country into ruins in the middle of the desert, which corresponds with their fight with religions which they hate and wants to destroy that people having such religion. They have stayed over 15 years in that country fully bringing death, disaster, chaos, starvation, poverty, crimes and corruption.

Serbia

They have entered there in order to cut a piece again from the country and make it weak and vulnerable, because they did not like them as usual. They have done mainly bombing and destroyed most of the key infrastructure in Beograd. However, the things were not good at all, because they have put in the bombs uranium, which is nuclear material. It has been poor Uranium, but it caused cancer for many years ahead due to it's X-rays destructive effect.

The country has been isolated for decades putting aside from the other advancing and developing countries cutting their way to the international trade and business. They have lost from missed opportunities due to the isolation caused by the biggest world slavers and criminals managed by the rich Jews known as Masons/Illuminati, who has brought back the Inquisition in our present with no any kind of ambiguity to take it back to the middle ages.

Libya

They looked for a good reason to fall down Moammar Kaddafi, who has been marked as dictator. The biggest dictators are the Religious Satanists enslaving the whole world returning back the Inquisition dragging us back to the middle ages. They are the dictators in Washington bringing death, sickness, poverty, misery, starvation, crimes, corruption, genocide and empowering the mafia and organized criminal groups worldwide to do crimes. So, they have waited for a long period of time to work out something to make misery to Kaddafi as well. Before that Libya has good standard of living. People have lived well until the time the biggest world criminals did not come and started making again crimes, murdering people and causing the next conflict to fall down the "one of the big dictators", when there are no bigger dictators as well to impose with their iron boot neo Nazism on the enslaved by them countries by returning the biggest evil from the middle ages the Inquisition putting in position every country to violate their own laws, because of them. Who are the dictators? Why they have fallen down Kaddafi, when people have lived well and did not complaint

Syria

- The offenders have empowered created by them radicals in the country to destabilize internally the order, peace and stability against Bashar Asad. The problems have escalated. There they have used together with Mossad and MI6 some very tricky technics of their well-developed and engineered schemes to solve the problem with more problems. Once they come it is the end for every targeted person or nation until the time they do not destroy them and when they see their targets can not recover than they go away and look for new targets. There they have created ISIS, which terrorists have spread around the world with the flow of the refugees running away from genocide. They have done the attentat in Paris 2015 year and Moscow 2024 (pretty recently). Behind that is the good tandem from Mossad, CIA and MI6 all managed by the rich Jews known as Masons/Illuminati. They have done lots of killing in Syria until the time the Russians did not enter with their troops when they have seen the Americans are murdering them in order to save them. Then, has happened the same as in Vietnam - the Americans have withdrawn on their own.

2 serious terrorists attentats

Their ISIS has caused terrorist attentats in Paris in 2015 year and Moscow 2024 year murdering many innocent civilian people. They have in their arsenal much more radicalised assassins spreader worldwide, whom they are awaiting to assign to specific targets. They are created by the well-known radicalization method, which is committed by destroying life of the targets, leaving them alive with the specific purpose to burn them for something else really terrible. That's done by the CIA black funding budget. They do the same with the Targeted individuals. They radicalize the targets and use them for their devil purposes. They manage them using their secret satellite network with synthetical telepathy and microwave weapons hanged on them.

You Might Be A CIA Terrorist If....

You own a \$300 machine gun and a \$5,000 rocket launcher,
but you can't afford shoes

HOW CAN I BARELY GET CELL SERVICE

IN MY HOUSE

**BUT ISIS CAN UPLOAD VIDEOS,
FROM A CAVE IN THE MIDDLE OF

**SILLY PEOPLE

Program Targeted Individuals

They have opened a Neo Nazi Program Targeted Individuals long time ago. I have seen some materials from 1980 year, which speaks it should be very old. It is as you know based on the principle to destroy the life of the target, radicalize it and in the end to cause it's suicide or assign the target to specific goal and murder the target together with achieving their satanical purpose.

For that they have developed all of that plus invested more than 3 BLN USD in order to murder worldwide all of us Tis whom they want to murder quietly without so much noise. We speak for such have not seen atrocities committed of course from the inquisition as it has been done before more than 800-900 years.

Action now

We have to act now and organize blocking the corrupted politicians get elected again on the upcoming elections worldwide, which are coming as follows:

-USA – in the Autumn of 2024 year

-EU – after less than 10 days commencing on 8-9 of June 2024 .

-UK – in the beginning of July 2024.

Enough is more than enough and we should respond with all measures necessary by blocking their servants enter in any national parliament to have no influence and power and sell themselves for money to the rich Jews (known as Masons/Illuminati). I am fighting with them since many years almost my whole life and until now I have seen their real face. They are absolute neo nazis worse than Hitler and dictators. For them there is no any law at all and they violate more than 95% of the national and international laws as well. We have to stop their servants in the national parliaments come one more time into power for the good of the humankind. Otherwise, they are going to continue murdering innocent people worldwide and now they make it hiddenly as usual to stay in shadow with their very powerful microwave weapons hanged on their secret military satellites. They are the biggest world danger and evil since the end of WW2, but now it's worse, because the technology is so much advance. That people are very crazy in the head and they murder massively many people without even to think for anything. It speaks enough the list of their crimes together with the fact they returned back that biggest Middle Ages evil called Inquisition to burn witches and scratchers. We have to unite the rest of the world and respond to them with all measures necessary

Thank you for your attention!!!
